How can the DRS help?

A large, dark triangular prism is positioned in the center of the slide. A horizontal beam of white light enters the prism from the left, and it is dispersed into a vibrant, multi-colored spectrum (red, orange, yellow, green, blue, purple) as it passes through the prism. The dispersed light then exits the prism and continues to the right, appearing as a series of horizontal bands of light against a dark background.

Resource Finder

Our interactive resource finder helps identify the digital tool best suited for your research project.

Welcome to our resource finder! Below are some key points for you to get the best use out of this tool.

+ More Info

- The Resource Finder summarises the available data and computing resources at the University of Edinburgh.
- You can use either the colourful wheel or the dropdown table to navigate lifecycle.
- You can answer as many or as few questions as you like and enter at a need to start at the beginning.
- More and more resources should pop up as you go through the questions.
- If you like, you can hide resources using the eye icon. You can also change beside the eye icon.
- If you wish to revisit or share your responses and associated resources will create a unique URL.
- For a full catalogue of tools and support, please visit our [Resources page](#).
